Forward-Looking and Cautionary Statements

This news release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 as contained in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that reflect management's current views and estimates regarding future market conditions, company performance and financial results, business prospects, new strategies, the competitive environment and other events. You can identify these statements by the fact that they use words such as "anticipate," "believe," "estimate," "expect," "intend," "project," "plan," "outlook," and other words and terms of similar meaning.

These statements involve a number of risks and uncertainties that could cause actual results to materially differ from the potential results discussed in the forward-looking statements. Among the factors that could cause actual results and outcomes to differ materially from those contained in such forward-looking statements are the following: general economic conditions, acquisitions and development of new businesses, divestitures, product availability, sales volumes, pricing actions and promotional activities of our competitors, profit margins, weather, changes in law or regulations, foreign currency fluctuation, availability of suitable real estate locations, our ability to react to a disaster recovery situation, and the impact of labor markets and new product introductions on our overall profitability.

A further list and description of these risks, uncertainties and other matters can be found in the company's annual report and other reports filed from time to time with the Securities and Exchange Commission, including, but not limited to, iTech Medical's Annual Report on Form 10-K filed with the SEC on April 15, 2010. iTech Medical cautions that the foregoing list of important factors is not complete and assumes no obligation to update any forward-looking statements that it may make.
